Completed the whole game, its great, nostalgic. Fun to play and just fun to watch all the conversation and silliness lol Minecraft chapter was pretty cool with all the game self-awareness hahaha Definitely recommend! Onward to see the continuation of this story.. This game is a lot of fun and brings back the days of Dragon Quest. I would give it a 10/10. Pros Great fun ok graphics. easy to pick up. Plays well with a gamepad. Can capture monsters and use them in your group. Only they dont level up disappointing. Awesome Game just completed all the chapters in 11 hours flat short but loads of fun. Probably could beat it faster but enjoyed every minute a must buy Cons Hero is bald!!! yuck!! With out the latest patch the game minimizes to the task bar but does not shut down semi annoying with patch it seems to be ok. lame attempt at humor. If you are looking for humor than get Doom and Destiny. You notice the extreme lack at attempted humor when the first monsters you fight are Biggs, and Wedge????? FFVI???? so lame and it only gets worse if you can get around that it is worth every penny Loads of fun.. real fun game, i love playing turn based rpg's like this, def recommend it if you're into this genre. This is yet another retro-pixel 8 bit game with a few notable differences. It doesn't seem to have been made with the terrible RPG-Maker engine which does make

the game slightly more appealing. It's written slightly better (but not that great) than most retro JRPGs trying to cash in on the success of Final Fantasy. Regardless, this is still just a cash grab driven by nostalgia, the graphics are very lazy retro-pixel (it's 2018 now, let pixel graphics die). I would give this 5/10 for not being a rubber stamp RPG-Maker game, but it's still completely derivative. Go play Final Fantasy if you want this kind of retro experience.. Really enjoy this game. It is fairly short but is highly amusing. It feels very similar to early dragon quest/warrior games. It goes on sale fairly often and you can get it crazy cheap. I recommend picking this one up and if you like it grab the 2nd part too.
